Career objective

Motivated Full Stack Developer with hands-on experience in MERN stack and real-time applications, seeking an opportunity to contribute to scalable and impactful software solutions. Strong problem-solving skills, effective communication, and a collaborative mindset, complemented by a passion for continuous learning and emerging technologies.

Education

Bachelor of Technology in Computer Science and Engineering Technocrats Institute of Technology, Bhopal CGPA: 8.10	2023 - 2027
BIHAR BOARD (Class XII) CPBI Higher Secondary School, Siwan, Aggregate: 81.00%	2021 - 2023
BIHAR BOARD (Class X) Hari Ram High School, Mairwa Aggregate: 84.60%	2020 - 2021

Projects

LeetLab (Full Stack Coding Platform) [Live Demo](#) (Jan - April 2026) **Jan 2026 – Apr 2026**

Developed a full-stack coding platform inspired by LeetCode, enabling users to solve problems, execute code in real-time, and track submissions.

- Developed REST APIs using Node.js and Express for authentication and problem management.
- Integrated Judge0 API enabling real-time execution for 5 programming languages..
- Built responsive frontend with Monaco Editor reducing page load time and improving user experience.
- Implemented secure authentication using JWT and HTTP-only cookies.
- Utilized PostgreSQL (Neon) with Prisma ORM and deployed the application on Vercel and Render.

Quick Chat [GitHub Repository](#) **Jun 2025**

- Developed a real-time messaging application enabling low-latency communication and seamless user interaction.
- Implemented real-time messaging with persistent chat history and secure user authentication.
- Architected the backend using Node.js and Express, building secure REST APIs and integrating Socket.io for real-time, bidirectional communication.
- Built a responsive and dynamic frontend with React.js, ensuring efficient state management and smooth UI updates.
- Designed optimized MongoDB schemas for efficient message storage and scalable data handling.
- Enhanced application security through robust authentication and private conversation management.

Skills

Programming Languages : JavaScript, Typescript, Java, SQL

Frontend : React.js, Next.js, HTML5, CSS3, Tailwind CSS, Responsive Design

Backend : Node.js, Express.js, REST API, JWT Authentication, API Integration, Authentication, Authorization

Database : PostgreSQL, MongoDB, MySQL, Prisma ORM

Developer Tools: Git, GitHub, VS Code, Postman, Vercel, Render, Docker

AI Tools : Claude Code, OpenAI Codex, GitHub Copilot

Soft Skills : Adaptability, Problem-Solving, Quick Learner, Analytical Thinking

Coursework

Data Structures Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Achievements

- Solved 500+ Data Structures & Algorithms problems across LeetCode, CodeChef, and GeeksforGeeks with a strong focus on problem-solving and optimization.

Certifications

Microsoft Certified: Azure Fundamentals (AZ-900)

Established a strong foundation in Microsoft Azure, focusing on essential services, cloud security, and architecture best practices to optimize cost and performance.
